

# STANEQ

New Generation Tennis Ball Machines

## FEATURES

- Top speed 110 km/h
- Lowest speed 30 km/h
- Extreme topspin & slice
- Ball intervals from 2 to 10 seconds
- Internal horizontal oscillation
- Vertical oscillation
- 9 training mode
- 3 - 8 hour battery life
- 150 ball capacity
- Weight 19 kg
- 5-35 degrees elevation
- Remote control included
- Battery powered(included)
- Storage Dimensions:  
48cm(H) x 50cm(W) x 55cm(L)

## OVERVIEW

### Phone app with easy using

(for Iphone and Android phones)

<https://play.google.com/store/apps/details?id=com.staneg.starter>

<https://apps.apple.com/tr/app/staneg/id1489285776?l=tr>

- 9 training mode
- 10 speed levels
- +2 spin, -2 slice levels
- 2-10 seconds ball intervals
- 30 levels manuel horizontal oscillation
- 30 levels manuel vertical oscillation
- Active battery level data
- Memory for 5 favorite settings

### 9 Training mode

- Horizontal oscillation
- Horizontal random
- Horizontal vertical
- Forehand-Backhand (two drills narrow)
- Forehand-Backhand (two drills medium)
- Forehand-Backhand (two drills wide)
- Vertical oscillation
- Lob
- Manuel

### Remote control

You can start and stop training with the remote control.

It does not disturb you while playing games due to the small control.

### **Internal oscillation (Vertical & Horizontal)**

Staneg ball machines oscillates internally and moves quickly making shots less predictable. This design moves away from the traditional ball machine model of oscillating the whole body which is slower and more predictable.

### **Internal battery**

It has 24 volt internal batteries. The battery offers between 3-8 hours depending on usage.

### **High quality Aluminium throwing wheels**

Throwing wheels made with CNC have high quality rubber coating. It runs silently since the balance is adjusted.

### **Charger**

Charging your machine within 6 hours with easy-to-use charging. Automatically shuts off when charged. 220V & socket type F

### **Easily carry**

Easily carry with pull handle and wide wheels.

## Technical information

- 24 volt internal 2 batteries
- 100 watt power consumption
- 220 V charging with external charger
- 5 dc motor
- 433mhz remote control
- Programming from phone with Bluetooth BLE connection
